Defense Supply Chain Cybersecurity Resiliency Seminar  
April 29th, 2020 - Webcast  
Draft Agenda

8:30  Welcome/Introductions/Housekeeping Info.  
Ashlee Breitner, Senior Project Manager, Economic Growth Institute

8:35  The New Cyber Maturity Model Certification (CMMC)  
Recording - Katie Arrington, CISO for Assistant Secretary for Defense Acquisition

9:25  Preparing for a CMMC Audit  
Tony Giles & Rhia Dancel NSF Global Business Solutions  
This presentation will help provide companies with a starting point for CMMC. It will also address what to expect in the coming months as companies prepare for their CMMC audit process.

9:45  Break

9:55  Risk In An Ever-Changing Environment  
Tony Giles & Rhia Dancel NSF Global Business Solutions  
This presentation will cover hidden risks organizations face through mobile devices, social media, and other platforms. It will demonstrate and discuss examples of each of these risks and provide ideas on how to mitigate them.

10:25  Workforce Resources Available to SME’s to Address Your Cyber Needs -  
Michelle Cordano, Workforce Development, Michigan Department of Labor and Economic Opportunity; additional speakers TBD  
This discussion will address workforce gaps and development needs related to cybersecurity and local resources available to assist in closing those gaps. In addition, we are seeking contacts to participate in focus groups to assist us in understanding what the cyber workforce needs are, what is driving those needs, and what the industry perceives as possible solutions to address these needs. We want to hear the perspective of cyber resource providers and small-to-medium businesses.

11:25  Resources Available to Assist Small Businesses with Certification  
Stephanie Ludwig, Defense Cybersecurity Assurance Program; Michigan Manufacturing Technology Center, Jeff Williams; Scott Tabor, Cybersecurity Awareness Specialist, Michigan Small Business Development Center; PTAC, Pam Poort

12:00  Conclusion
